Background

The 2019 National 21st Century Learning & Skills Survey Report provides a comprehensive overview of the current state of education in New Zealand. It highlights the need for a more holistic approach to learning, one that focuses on developing students' skills and well-being alongside their academic knowledge. The report identifies key areas for improvement, such as enhancing digital literacy, promoting mental health support, and fostering a more inclusive and equitable learning environment. It also offers practical suggestions for schools and educators to implement these changes effectively.
