

The Australia Trade Fixtures (ATF) platform is designed to give you the opportunity to view and sell our different countries across the globe and through the Auctions of the program.

There are a number of events structured open. The investments are tailored to most audiences in particular. The categories are generally trading, job creation, social and the resources needed to help, create, diversify and development activities in low and middle income countries. The open events are tailored to the general public, ATF's Offices and Partners. These sessions are suitable to diverse segments, networks, institutions, researchers, governments, social business and practitioners interested in global trade. At ATF's Trade Fixtures you'll discover that our platform offers a range of services, from our Trade Fixtures to our Trade Fixtures Development Events.

The details of the opportunity events for the Auctions of the program are listed.

the ATF website

## Upcoming Events

**Trade Fixtures (ATF) 2024**  
Launch at the Trade Fixtures  
Event. This event will be  
held at the ATF's Trade Fixtures  
Event in Sydney, NSW.  
The event will be a  
great opportunity to help us  
provide support to trading  
partners in various countries  
across the globe. It will  
also offer a chance for  
partners to connect with  
trading partners,  
researchers, governments,  
social business and  
practitioners – all in one  
place.
