Spring - Winter 2024

The American Health Network (AHN) is pleased to announce the upcoming events, which will include in-person meetings, across the globe and through the Spring - Winter season.

There are two types of events: closed and open. The closed events are facilitated for closed audiences or participants. The participants are generally existing customers, MNCs and their employees involved in this, other, closed and/or customer activities in several multi-business entities. The open events are facilitated for the general public, MNC's affiliates and partners. These features are suitable for broader responses, clients, customers, researchers, policymakers, senior leaders, and practitioners interested in economic health, the MNC's future investment for broader than National Global Targets 4 and 5, and the Sustainable Development Goals.

The details of the upcoming events for the Spring - Winter season are below.
