Shakira (18) is a Year 1 child in high school at Kinder Rosmini Tea Estate

After receiving the medicine, she could not walk.

"Receiving all these new clothes made it something I never thought of. I think this school years ahead was the beginning of a new year."

Many students continue to struggle with exams this month, with increased reports of illness and absenteeism. Students at the Rosmini Tea Estate in Kinder Rosmini High School are receiving a much needed boost with new school bags.

The school efforts are intended to help reduce the number of students who drop out of school. The aim is to offer assistance to those students who cannot afford to pay their fees for the next academic year. The initiative also highlights the importance of maintaining ongoing commitment to disaster management and humanitarian aid, further emphasising its role in supporting vulnerable communities in Bangladesh.
