

The other focus of the training programme was the online content on Gender Inequality, Human Resource, Market trends, SWOT analysis, customer flow, revenue, marketing, how to set up a business plan, Project Budget, etc.

The aim of these activities were to disseminate the findings of the study and introduce 'gender inequality, marketing, digital, etc.' and to engage groups around their needs and interests and to explore the concerns of the women who need to get into higher groups.

The work and meetings were completed with the participation of Group Coord. Sangeeta, Sr. Women's Health, who supported the group through these activities. It is noted that women and 10 men.

For the community training, the women of the village of the community received the list of the participants from their respective groups. 10% of the participants from each of the groups and 10% of the participants from each of the groups were selected to be the village unit of the training. In the training programme, the participants were provided with the list of the participants from each of the groups and 10% of the participants from each of the groups were selected to be the village unit of the training. In the training programme, the participants were provided with the list of the participants from each of the groups and 10% of the participants from each of the groups were selected to be the village unit of the training.

From 10 to 15 April 2016, three programmes were planned to help to address gender inequality and women's health through education, training, and community (CIC) and women's group formation (WGF).

The community programme was carried out according to the 2011 and 2012 standards through these activities and community training under 10 stages.
